

# Custom Flyers

Create a custom flyer with your company's logo and contact information.

Throughout the year Bag Designs offers product specials and clearance items to our distributors. Now distributors have the option of adding their logo and contact information to create personalized custom flyers.

Simply send us an email with your logo and contact information and within 2-3 business days our Graphic Artists will add the information to the requested flyer and will email it to you in PDF format.

*It's That Easy!*

Click on the "specials" tab for our current flyers.

For more information on our "Custom Flyer Program" contact your Bag Designs Customer Service Representative today!
